

# COVER LETTER - DATA ANALYST

Candidate: ATUL DEEPAK MORE | Target Company: This Is A Full

---

Dear Hiring Manager,

I am excited to apply for the Data Analyst role at This Is A Full. With a B.Sc. in Data Science from Devi Ahilya Vishwavidyalaya and hands-on experience in Python, SQL, and data visualization tools such as Power BI and Tableau, I have honed my ability to analyze complex data sets and translate findings into actionable insights.

During my project on the Google Merchandise Store, I leveraged SQL and Python to clean and analyze large volumes of data, then used Power BI and Tableau to create interactive dashboards that highlighted key performance indicators. This experience sharpened my problem-solving skills and reinforced the importance of clear communication when presenting results to stakeholders.

I am eager to bring my analytical mindset, strong communication skills, and collaborative spirit to This Is A Full, and I am confident that I can help your team make data-driven decisions that enhance customer support and overall business performance.

Thank you for your time and consideration. I look forward to the possibility of discussing how my background aligns with your needs.

Sincerely,  
ATUL DEEPAK MORE
