Subject: Application for Data Analyst Role - ATUL DEEPAK MORE

Dear Hiring Team,

I am writing to express my interest in the Data Analyst position at Drive. With a B.Sc. in Data Science from Devi Ahilya Vishwavidyalaya and hands-on experience in SQL, Python, and dashboarding tools such as Power BI and Tableau, I have developed a strong foundation in data analysis, visualization, and business insights. My recent project analyzing the Google Merchandise Store data showcases my ability to perform exploratory data analysis, build baseline machine learning models, and translate findings into actionable dashboards.

I am eager to bring my analytical mindset, communication skills, and collaborative approach to Drive's data team.

Thank you for considering my application.

Sincerely,
ATUL DEEPAK MORE
